September 2022 – London UK / Concept

ODESSA INTERNATIONAL TRUST

Mission:	Odessa Shield & Protect
Impact Zone:	**UKRAINE** **Conflict Zones**
Activity:	Emergency relief, logistics support & aid distribution support
Beneficiaries:	200'000+ homeless children / internally displaced refugees
Host country:	UKRAINE
Ref:	**Concept Description**

Android / iOS APP Digital Onboarding of Beneficiaries
Facial Recognition, GEO location GPS tracking & Prompts

Mission: Provide a standalone Android / iOS based APP beneficiary onboarding platform, where homeless children in distress & internally displaced refugees from conflict zones located within Ukraine, can register themselves in order to obtain emergency relief & humanitarian aid using mobile phones & check ins.

1. Biometric Onboarding / Facial Recognition…………………………………………..

The beneficiary onboards himself by means of a). APP download, b). subsequent Selfie taking (Facial Recognition) & c). followed by answering in-app "prompts" reflecting his/her current health, nutrition & living situation by means of adequate answer selection from predetermined questions.

2. GEO location GPS tracking & revolving Data Synchronization ……………………

APP onboarding & Use triggers in-app GEO location GPS tracking, establishing the GEO location of the beneficiary. Renewed use of the APP triggers revolving facial recognition, GEO position & current status (prompts) in reference to the beneficiary.

3. Beneficiary Data Feeder to Humanitarian Aid / Relief Operators on the ground…..

Beneficiary data feeders are being accessed by authorized humanitarian aid / response teams, with direct benefits distribution capabilities in favor of the concerned beneficiary. Emergency teams & aid operators have access to "update" the beneficiary's current situation in the system, adding situation records via 3rd. party beneficiary recognition & prompts updating to the platforms encrypted data base.
